PROFILE

Over three years of experience taking projects from initial scoping to final handover, combining UI design and front-end development to create responsive websites. Works directly with clients to understand requirements, present designs and implement changes based on feedback, while considering technical constraints, timelines and budget.

EXPERIENCE

Web Designer (APAC) · Odoo HK Ltd.

FEB 2023 – PRESENT

- Led website work on approximately 55 Odoo ERP projects. Clients were primarily based in Australia, with others in New Zealand, Hong Kong and Southeast Asia.
- Designed website and eCommerce interfaces for clients across industries, including B2B and B2C businesses, tailoring each design to their business model and operational needs. Presented designs, implemented changes based on client feedback, and addressed related requirements such as shop visibility and invoice layouts.
- Collaborated with the Product Owner in Belgium, reporting bugs and advocating for UI/UX improvements and new features in current and future Odoo versions based on hands-on product experience and client feedback.
- Identified and explained platform limitations, trade-offs and new Odoo capabilities to clients moving websites from Shopify, Magento, WordPress, Wix and other platforms; adjusted websites following Odoo version upgrades.
- Trained clients to maintain websites using the Odoo website builder, tailoring guidance to their daily operations; supported Odoo partners on their projects and provided partner training.
- Coordinated concurrent projects, estimating effort, recording time in timesheets, tracking allocated hours, and managing timelines and scope changes.
- Supported pre-sales scoping with the Sales team, assessing website requirements against client budgets and timelines, recommending suitable options, and joining face-to-face meetings when needed.

Web Programmer · Solution Forest Ltd.

AUG 2019 – MAR 2020

- Developed and maintained client websites and content management systems using HTML, CSS/SCSS, Bootstrap, WordPress and Laravel.
- Built responsive website layouts with consistent behaviour across browsers and devices.
- Worked with teammates to clarify client requirements, resolve technical issues and deliver website solutions.
