PROFILE

Client-facing web designer with over three years of experience independently delivering website projects from initial client meetings and requirements gathering through UI design, front-end development, launch and handover. Combines a BSc in Interaction Design with hands-on development skills to balance client needs, design quality and technical requirements.

EXPERIENCE

Web Designer (APAC) · Odoo HK Ltd.

FEB 2023 – PRESENT

- Led the majority of approximately 55 website projects for clients in Hong Kong, Southeast Asia, Australia and New Zealand, covering UI design and front-end development.
- Gathered client requirements, conducted design reviews and translated feedback into responsive website layouts and interface solutions.
- Advised clients on moving existing websites to Odoo, explaining platform limitations and design or feature trade-offs to guide implementation.
- Worked with the Product Owner to propose UI/UX improvements, share client feedback, report bugs and submit feature requests.
- Coordinated concurrent website projects from requirements through launch and handover, estimating effort, tracking time against allocated hours, and managing timelines, deliverables and scope changes.
- Provided client training and supported pre-sales consultations with the Sales team to define website scope and technical solutions.

Web Programmer · Solution Forest Ltd.

AUG 2019 – MAR 2020

- Developed and maintained client websites and content management systems using HTML, CSS/SCSS, Bootstrap, WordPress and Laravel.
- Built responsive website layouts with consistent behaviour across browsers and devices.
- Worked with teammates to clarify client requirements, resolve technical issues and deliver website solutions.
